

OACEUS Virtual Physical Therapy

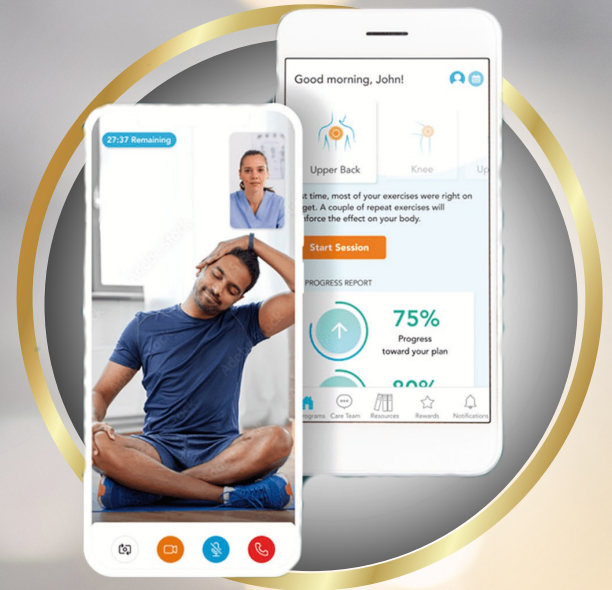

High Touch Musculoskeletal Care.

OACEUS combines Live Physical Therapists with an AI-Driven Digital MSK platform to deliver evidence-based Care Plans that are proven to prevent injuries, guide members to pain relief and reduce MSK costs for employers.

The Most Comprehensive MSK offering

Intuitive, real-time AI backed by a clinical care team of multidisciplinary experts including health coaches, orthopedic physicians, physical therapists, behavioral health, and substance use disorder clinicians.

- Pain management for 18 body parts
- Job-specific injury prevention
- Prehab/rehab education and care
- Musculoskeletal maintenance
- Pelvic health
- Behavioral health programs
- Ergonomic assessment and correction
- Lifestyle programs

Let us lower your direct costs like physical therapy, surgical intervention, and medication, and also provide substantial pain relief for your employees' most common and costly musculoskeletal conditions.

OACEUS Delivers:

- Stress-free implementation, with your program running in as little as six weeks
- Validated cost avoidance
- A care team of coaches, physical therapists, and physicians
- Triage and referral to medical benefits
- High member satisfaction
